

Sinclair
Broadcasting's
attempt to misuse
publicly-owned
airwaves to forward
their own political
agenda is
reprehensible and
criminal. Every
effort should be
made by the FCC to
halt what amounts to
an illegal use of
public property to
directly violate
elections laws and
the fundamental code
of ethics in
journalism. The
Facists and Nazis
used similar tactics
to win political
power in their
respective countries
in the '30s. If the
FCC stands by
impassively while
corporations run
rough-shod over the
electorate will not
be tolerated by the
citizens of this
country.

Thank you for your
attention to this
matter. No less than
the freedom of this
country is at stake!
